Skagit Indian Troubles. San Francisco, 29 — Portland dispatch: Li-usenant Symens has just returned with a company of the Itwenty-first Infantry from Sangit River, where he went to settle the trouble with the Indians, who had driven the United States surveyors from field work. He found about 150 warriors, well armed and provided. They claimed that they had never traded the lands being surveyed to whites, and could not give them up without some equivalent. The matter was finally amicably arranged to allow the surveyors to go up the Skagit River as far as Sank.

Simonton Soys.

New York, 30.—The Sus of to-day expressed digust over the Garfield-Morey forgary, while itself supporting the Hancock ticket. Its disgust is shared by the great body of respectable semo crais here, who bemosa the fact that it has damaged their cause and admit that it ought to do so. They point to the fact that the origin of the publication is the most disreputable sheet in town; that Hart, who is put forward as publisher, is a negro ministrel, and that he is an ulliturals English puppet. Philip is defended by the rebel general, Roger A. Pryor, instead of any of the many well known democratic lawyers here of loyal antocedents, and admitted respectability, and finally that many charges of the forgery abundantle sustain Garfield's denial of the authorship. All these, together with Barnum's small tricks, like that of telegraphing to the country Hart's release from arrest for contempt of court, as a sindication of the forgery crowd, so shances bomorable democratic with their party that they are heard hourly a mouncing their purpose to rebulse such management by voting for Garfield. These are simple, well attented facts.
